### U. S. Gov't Baking Powder Tests.

The report of the analyses of Baking Powders, made by the U. S. Government (Chemical Division, Ag'l Dep't), shows the Royal superior to all other powders, and gives its leavening strength and the strength of each of the other cream of tartar powders tested as follows:

ROYAL, Absolutely Pure.	LEAVENING GAS.	
	For cent.	Cubic in. per cent.
	13.06	100.6
	12.58	151.1
	11.13	133.6
	10.26	123.2
	9.53	114.
	9.29	111.6
	8.03	96.5
	7.28	87.4

These tests, made in the Gov't Laboratory, by impartial and unprejudiced official chemists, furnish the highest evidence that the "Royal" is the best baking powder.

Wisdom demands forethought.  
Reason is the life of law.—Coke.  
Chance is the providence of adventure.

There is glory and true greatness in raising one's self by the heart.

Independence, like honor, is a rocky island without a beach.

Every day is a little life, and our whole life is but a day repeated.—Bishop Hall.

"But yet" is as a jailer, to bring forth some monstrous malefactor.—Shakespeare.

Conversation is an art in which a man has all mankind for competitors.—Emerson.

Great men are like meteors, which shine and consume themselves to enlighten the earth.

Disdain hatred; hear both sides and delay judgment until reason has had time to resume her sway.

We can only escape the arbitrariness of the Judge by placing ourselves under the despotism of the law.

An industrious and virtuous education of children is a better inheritance for them than a great estate.—Addison.

Have a purpose in life, and having it, throw into your work such strength of mind and muscle as God has given you.—Carlyle.

Considering the unforeseen events of this world, we should be taught that no human condition should inspire men with absolute despair.—Fielding.

The worst days of darkness through which I have ever passed have been greatly alleviated by throwing myself with all my energy into some work relating to others.—Garfield.

As our body casts a shadow, so does our character cast an influence. As a shadow may be either healing or hurtful, so does influence either bless or damn.—Carlos Martin.

#### SOME PITHY APHORISMS.

That man is rich who hath no debts. Giving brings love, lending scatters it.

Only the fool brags of his bank account. Never trust the man whom you have wronged.

Put the brakes on the investment that hurries you. Be the last to cross the river of doubtful investment.

As a pillow, a clear conscience will beat goose feathers.

None but a patient man should give his all before he dies.

He who accumulates doth well, but he who preserves doth better.

A man not handsome at twenty, strong at thirty, rich at forty, nor wise at fifty, may as well give it up as a bad job.

Every man's door has received the knock of fortune at least once. Most failures were those too lazy to get up and let her in.

## Growing too Fast

means that children do not get proper nourishment from food. They are therefore thin, narrow-chested and weak.

## Scott's Emulsion

the cream of Cod-liver Oil and hypophosphites, supplies material for growth. It makes sound bones, solid flesh and healthy, robust children. Physicians, the world over, endorse it.

#### PROGRESS AND SCIENCE.

England makes over 6,000 locomotives a year.

An aluminum alloy has been discovered that prevents excessive corrosion in salt water.

A leading throat specialist says that "the best chest protector is worn on the sole of the foot."

M. Deloncle's grand project of constructing for the Paris Exposition of 1900 a huge telescope, which will bring the moon within a meter of the earth, is, according to the "Figaro," far from being dropped. The cost of constructing the gigantic lens which will be required will be defrayed by M. Bischoffsheim, the well-known and wealthy astronomer.

A new value has been given to water-power heretofore running to waste because of inaccessibility or of distance from the places at which it could be utilized. A waterfall, wherever it may be located, is no longer a mere thing of beauty to charm the eye of the beholder. Niagara power, transmitted by electric appliances, has been set at work to drive the wheels, to light and warm the dwellings and to carry and fetch for all the towns within the circuit of 100 miles from where it thunders on its way to the sea. Great factories dependent for motive power upon the tumbling waters of the falls are springing up within the radius of economical distribution. Hereafter grandeur and utility will be compulsory yoke-fellows. Whoever owns a water-power has latterly come into possession of a gold mine. He has only to make his water work as well as play. One of the latest schemes for the utilization of waste water, however, is the proposition to harness the Susquehanna river and set it generating electric force. It is proposed to dam the river near Conowingo, and to erect suitable electric machinery to be driven by water. The power thus generated will be transmitted to Baltimore, Philadelphia, Wilmington and intermediate points for street railways, electric-lights and other purposes.—Philadelphia Record.

#### A SCRAP BOOK OF FASHION.

A bright woman has been making for many years a collection that is far from completed, that is absolutely unique, and that has great intrinsic value. In the early days of the late war she began a scrap book of nothing but fashion plates. This has been added to from time to time until the one volume has grown to several. It is a wonderfully interesting sight, the passing in review of all the absurd fancies that have flourished in these thirty odd years. There are the Grecian bend, the chignon, the waterfall, the pullback, the ermine, the tiny bonnets and the pokes, the large bustles and the large sleeves. Only extremes of style and oddities are used, or the collection would swell beyond all proportion. As it is, it is the source of much mirth whenever she brings it out as a "company trap."

#### ALL THE SAME.

"Many days you have lingered about my cabin door; hard times, hard times come again no more." All the same Merry Christmas and Happy New Year passed as though the land was flowing with milk and honey. Some bought one thing and some bought another, but one of the best investments for a small sum paid well. It was not for a Christmas bush, but the said got it, and then-and who had suffered long and wearily with rheumatism were made "only happy in being cured by St. Jacobs Oil." It cures no trace behind, and all the same, the harder times will come no more to them. The luxury of health is worth a fortune.

"Always speak well of your neighbor." "I always do, although I am sure you she is the meanest woman in creation."

#### A WORK OF ART.

Hood's Calendar for 1895 is "a thing of beauty." In the novelty of the design and the exquisiteness of the coloring, the calendar surpasses all previous issues. The calendar is formed in the shape of a heart, and is ornamented with two beautiful child faces. The calendar gives the usual information concerning the lunar changes, and up to the back is printed a table of astronomical events especially calculated for C. I. Hood & Co.

The calendar is issued to advertise Hood's Sarsaparilla, Hood's Pills and the other preparations of the firm. The edition of Hood's Calendar for 1895 was 19,339,999, or about 25,000 more than last year.

Those who are unable to obtain Hood's Sarsaparilla at the drug stores should send six cents in stamps for one, or ten cents for two, to C. I. Hood & Co., Lowell, Mass.

The condition which confronts Mr. Cleveland is the direct result of his theory.

#### A Gentle Corrective

is what you need when your liver becomes inactive. It's what you get when you take Dr. Pierce's Pleasant Pellets; they're free from the violence and the gripping that come with the ordinary pill. The best medical authorities agree that in regulating the bowels mild methods are preferable. For every derangement of the liver, stomach and bowels, these tiny, sugar coated pills are most effective. They go about their work in an easy and natural way, and their good lasts. Once used, they are always in favor. Being composed of the choicest, concentrated vegetable extracts, they cost much more than other pills found in the market, yet from forty to forty-four are put up in each sealed glass vial, and their good lasts.

"Pleasant Pellets" cure biliousness, sick and bilious headache, dizziness, constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in sealed glass vials, therefore always fresh and reliable. Whether as a laxative, or in larger doses, as a gently acting but searching cathartic, these little "Pellets" are unequalled.

As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They are tiny, sugar-coated, antibilious granules. Any child readily takes them.

Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

A free sample (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.
